
FENTON
HEREFORD RANCH
62nd ANNUAL
Production Sale
NOVEMBER 19, 2026 IRMA, AB

Welcome

TO FENTON HEREFORD RANCH

I believe this marks 80 years of registered Hereford cattle and 40 plus years of selling registered foals and geldings. 80 years is a long time and believe it or not we don't always have it figured out. Raising seedstock is challenging and sometimes the best matings are purely accidental. With that said we keep and record as much data for ourselves as possible. We try to identify trends early and eliminate what isn't working and promote what is. And the further we analyze data the more we believe it is next to impossible to compare herd to herd. Assigned data will not account for environment in real enough time to make it useful for breeding decisions. For that reason, we rely heavily on our inherd data and indexes but put little stock in comparing our herd to those we have never seen. We keep udder, disposition, and feet scores on all our cows. We have also carcass tested our bulls off and on for many years. These are hard numbers that aren't estimated or put into contemporary groups. When we select herdsires whether we raise them or source them we have a stamp that we are after. Even though there are several different bloodlines within our herd it is important that our cattle phenotypically look the same. Our goal is to not only have our customers sell their calves in one draft but go on and make the next owner money. If you have any questions on any of the lots please contact us as we will provide as much information as possible to help with your decisions.

The Bennett Ranch once again has top quality foals and bred heifers on offer and their program speaks for itself.

With that I would like to welcome you to our 62nd Annual Production Sale Thursday, November 19th at the Ranch.

FHR REFERENCE SIRES

FE 44S RED SKYLINE 24U

SNS 3P SKY BRIT 44S X SGC HAWKEYE LASS 29H

24U is a foundation bloodline here on the ranch. The natural thickness and extreme docility in this line is still evident today.

FE 63W STANDARD DOM 200B

BP 101T STANDARD DOM LAD 63W X FE 144K RIBSTONE 113P

A bull that put wide-topped females back into our herd. He promotes easy fleshing, moderate birth weights, low maintenance, and disposition. Paternal brother to 114B.

FE 35D ARROW LAD 218K

LO 81A ARROW LAD 35D X F STANDARD LASS 41A

A bull retained to replace sire LO 35D. The Fulton cowherd came as advertised. The John Fulton cows were as good as we have ever purchased. The dam of this herd sire was no doubt one of the best. We will retain several females due to dam 41A.

FE 63W STANDARD DOM 114B

BP 101T STANDARD DOM LAD 63W X NORTHFORK 83A ADV LASS 7M

This bull consitently sires productive cattle. He solidifies feet, udders, disposition and milk. Paternal brother to herdsire 200B.

LAMPORT'S 42F HARVESTER 29H

LAMPORT'S 125D FRONTIER 42F X LAMPORT'S 121Z BONNIE 21B

Purchased from Lamports in the Medicine Hat Bull Sale. In our search for new outcross polled genetics we found 29H. He sires cattle with extra middle, quarter, disposition, length, hair, heel, pigment, a deep eye set, and square testicles.

FE 77B TURIN SUNRISE 54H

C 81Y MISTY LAD 77B X FE 418Z ROBIN AMIGO 212C

A bull held back to replace his sire 77B. This line will promote hair, correct udders, deepen flanks, and add a steep foot.

FE 170E REST EASY 77H

FE 5B REST EASY 170E X FE 218C SUPERMAN LASS 52F

A calving ease line that has gone on to produce females with excellent udder development, milk, and disposition.

FE 200B STANDARD RIBSTONE 80G

FE 63W STANDARD DOM 200B X FE 310Y EASY LASSY 193B

80G has seen heavy use the past few seasons. His daughters are making excellent females. They are broad topped, deep flanked, and show outstanding udder development. We have retained many.

FE 50E EARL 61J

BAR-RZ 6964 EARL 50E X SGC 157Z XEMPT LASS 63D

Purchased from Bar B out of a cow we think a lot of. He grew into an impressive bull. The first daughters are in production and have met expectations. The performance in this line will surprise you due to the length of progeny.

FE 205F RANCH STANDARD 179J

FE 279A RANCH STANDARD 205F X FE 89P ALBERTA RIBSTONE 141W

One of the feature sires. Purchased from Bar B out of the old 141W cow. We watched as all 141W daughters rose to the top of their respective age groups regardless of mating. Maternal brother to Herd bulls BRF 334A, and BRF 120F. 179J is the 11th calf of 12 registered to 141W.

TLELL 4013 KINETIC 12K

INNISFAIL WHR X651/723 4013 ET X TLELL 8N RED ROO ET 29Z

Purchased as a calf from Don Richardon. 12K was used on a handful his first year and has seen a full slate since then. He has developed into an extremely deep sided, broad topped, massive Herd Sire.

FE 207F REST EASY 238K

FE 5B REST EASY 207F X FE 217B BIG AUSTIN 385H

Originally used on heifers that we moved on into the cows. In an effort to promote more natural thickness and wide tops we used this sire on second calvers. Very clean made yet strong through the heart. Will add pigment and we expect excellent udder development.

FE 7G TURIN RIBSTONE 119K

LO 118D MISTY LAD 7G X CR 29W WEST LASS 117A
Held back to replace his sire LO 7G. Extremely wide-topped and excellent disposition. Backed by an outstanding Greg Ramsay bred cow.

BRF 85G ROYAL LAD 1K

RUT 66C RED CLASSIC LAD 85G X FE 77B TURIN SUNRISE 202F
A smooth made bull with tremendous muscle and thickness. Purchased from Bar B in Medicine Hat. Smaller at birth but grow and gain. A bull that will winter on a straw pile. Extreme docility and natural fleshing ability.

FE 207F REST EASY 93K

FE 5B REST EASY 207F X FE BEC 25E EXPLOSIVE T LASS 8H
We retained 93K for our own use as we really appreciate the natural muscling and pattern that this bull exemplifies. A very stylish and sound herdbull that also promotes calving ease.

FE 132D RAM TOUGH 233K

CR 72A LAD 132D X FE 200B STANDARD RIBSTONE 240E
Held back to replace his sire 132D. 132D is the sire of many top females within our herd. By combining 233K's dam 240E we have now stacked several of our best bloodlines together. These females should excel in both productivity and longevity.

This 80G son is one of the top bulls in the auction. The 80G bulls are all broad topped and have a leg under every corner. A maternal sister sold last year and is doing a good job for Rylan Stafford. Sometimes you can use a bull too long, but we would take more 80G calves. The daughters are in production and making excellent young cows. Have a hard look here.

It's hard for Jess to part with any heifers, especially the daughters off these good old polled cows, that being said we have a lot of these genetics in our herd so it only makes sense to offer a few features. Her dam, 93C, an Xempt daughter, were in our opinion the best polled cows we acquired with the Crone herd. 78N is a feminine, deep cherry red 8J daughter with goggle eyes and a quiet disposition.

We think really highly of these two 66K sons, the highest performing bulls in our 2025 crop. We entered them in the Gene's of the Future Sale at the Hereford Showcase in Red Deer and are selling as a Choice lot on October 30, 2026. The other brother will sell here, leading off our Bar B Bulls in our production sale. 66K's offspring have added depth, muscle development, are excellent footed, and weigh at both the top of the heifer and bull pens. Since we still have the sire in use in our herd we thought now is the time to offer two sons out of the very top cows from his first calf crop. It wasn't an easy decision to part with either bull as they have flip flopped as our top two favourite 2025 bull calves all along. BRF 84N was our 2025 Hardisty Field Day Reserve Champion Bull Calf. His Dam 123G is from our strongest maternal 141W bloodline, who is a deep bodied cow with a beautiful udder, perfect feet, and raises top end calves every year. BRF 30N has always caught our eye and also won his class last summer at the Hardisty Field Day as well. We acquired his Dam 84D with the Crone cow herd, and she raises top calves every year as well. As a 10 year old cow she still has perfect feet and udder and is an easy keeper. Both of these bulls are naturally quiet, and super easy to handle.

Unfortunately we lost 534H after his second breeding season due to being injured with the herd bulls, so this is his last crop of sons. Take a hard look at this guy, with an exceptional mother that has sent multiple sons to the Hardisty Field Day, crossed with his 534H sire, he has a ton of performance. HES SO Extra

I purchased HES SO EXTRA from the Smith Ranch out of Texas and am very proud to own a stallion of this caliber. We really believe in this stallion, not only because of his bloodlines but also his confirmation – powerful muscling and bone that carries into a strong set of hindquarters and low hocks. This stud is built to slide, stop and really turn around. I personally started and rode this stud as a two-year-old and everything was effortless. Easy to start, easy to train, and he consistently shows strong desire to work and please. For a young stud he has a ton of heart combined, with his quiet, calm demeaner makes him handy and usable.

SIRE: XTRA WHITE MAGIC (2017). His first foals arrived in 2021. Son of SHINERS VOODOO DR, $87,098 and 46.5 AQHA points: NRHA Open Derby Co-Reserve Champion; finalist NRHA Open Futurity. Sire of 390 money-earners, $4,803,263, and earners of 4,308 AQHA points, including SHINER ON MY EYE ($187,555; split 4th NRHA L4 Open Futurity), LITTLE MISS VOODOO ($113,811; NRCHA Open Stallion Stakes Co-Reserve Champion), XTRA NEW PAL VOODOO ($109,894; 4th NRHA Open Futurity), WARLOCKS LAST STEP ($105,327; Buckeye Friends of Reining L4 Open Futurity Reserve Champion), SWEET VOODOO MAMA ($101,007; NRCHA Limited Open Futurity Champion), XTRA MAGIC DOCTOR ($98,956 and 223.5 AQHA points; AQHA World Working Western Rail Ranch Amateur Reserve Champion; Superior Reining), SHEZA VOODOO DR ($64,363).

LBJ HUMMIN JAKE	LG HAVEA PILSNERDUDE
TWO BLUE JAKE	BELLE KITTY WBBRC
AJ TWO EYED KING	KITTYS SLY SOCKS

Bull is nothing short of impressive! This stallion is a son of TWO BLUE JAKE crossed with our best mare, a buckskin with the prettiest babydoll head. He is gorgeous to look at all day long with his superior muscling, strong hocks, big thick hip, good wither, and a very pretty head and neck with a correct shoulder. He has been rode on all aspects of the ranch and is a delight. With his low set of hocks, he can really move, but can also walk in and out of the branding pen like an old broke horse. Everyone needs a gelding like this horse. We are proud to have raised him.
